

Ruukki Construction

Health and Safety Policy

We in Ruukki Construction:

- provide a healthy, safe and secure work environment for our employees, contractors and visitors and are committed to continuously improve processes and conditions
- have proactive self-accountability for safety by each employee
- take occupational health and safety into account in all activities and decisions throughout the company and are committed to follow legal requirements
- have a constant dialog with all our employees or through their representatives to ensure commitment and participation for building our next level safety culture
- believe that all accidents can be prevented and our goal is zero accidents, injuries and work-related illnesses. To achieve this goal we:
 - lead by example;
 - ensure that all employees are provided with all necessary knowledge, training and equipment;
 - interrupt and instruct colleagues and contractors if they take a risk or fail to comply with established safety rules;
 - improve the employees' physical and mental wellbeing through preventive work;
 - systematically identify and eliminate the root causes of accidents and near misses which have occurred.

Our customers and building users

- will get safely and responsible manufactured products and services
- can rely that products and services can be installed and maintained in a safe way
